EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with William Cuchlinski on 01/29/09.
3. The application has been amended as follows:
 - a. Claim 1, line 18: delete "surface is", add –surface being–.
 - b. Claim 1, line 22: delete "groove located adjacent", add –groove having a generally U-shaped cross section, said inner track groove–.
 - c. Claim 1, line 24: delete "groove extending", add –groove having a generally V-shaped cross section and extending–.
 - d. Cancel claim 23.
 - e. Claim 35, line 15: delete "said left wall cap including", add –at least one of said left wall cap and said right wall cap including–.
 - f. Cancel claim 36.

Allowable Subject Matter

4. Claims 1, 8-22, 24-25, 28-35, and 37 are allowed.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:
6. The combinations of Greene, Silva, Paz, and Skov set forth in the previous action result in an enclosure system with floor, side, wall, door, and telescoping roof as claimed. However, the amended claim 1 now further requires wall caps with specific structure, including locking posts cooperating with sockets in the wall panels, a bottom with a U-shaped track groove, and a top with a V-shaped track groove, the specifically shaped grooves aiding the telescoping of the roof panel.
7. None of the references cited above teach left and right wall caps, independent of the wall panels and roof panels, and including the U- and V-shaped grooves and locking posts claimed.
8. All other prior art of record also fails to teach left and right wall caps independent of the wall panels and roof panels, and including the U- and V-shaped grooves, locking posts, and other structure as claimed. Instead, the prior art supports the teaching that wall panels and roof panels are directly connected, not separated by a wall cap member.
9. It would not be obvious to modify the prior art combinations used in the previous rejection by adding an intermediate cap piece that bridges wall and roof panels, includes posts to lock into the wall panels, and includes U- and V-shaped grooves as claimed, since there is no motivation in the prior art and it is not well-known to do so. Any modifications to the combination that would arrive at the invention would require improper hindsight.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRANON C. PAINTER whose telephone number is (571)270-3110. The examiner can normally be reached on Mon-Fri 7:30AM-5:00PM, alternate Fridays off.
